1. [Arduino Sunflower – an Electronic Sundancer](#)

Maker is always sensitive to the new and funny things. One day, I watched a video, in which the sunflower moves along with the sun. I had a sudden insight then. Why can't I make an electronic device imitating this biomechanism. In the following days,..... Listed under: [Solar energy projects](#)

2. [B-SENSOR: DIY PRESSURE CUSHION](#)

This project examines how interface pressure is a key risk factor in the development of pressure ulcers. Visual feedback of continuous interface pressure between the body and support surface could inform clinicians on repositioning strategies and play a key role in an overall strategy for..... 3. [Which MICROCONTROLLER for Your ELECTRONIC FASHION?](#)

What Does Fashion Lack? "Microcontrollers" I always answer – and it's TRUE! It makes your garments SO much more interesting, interactive and communicative as soon as you add some INTELLIGENCE to it. But which ones are on the market? I started a little research on..... Listed under: [Bluetooth Projects](#)

4. [How to Use the Adafruit Flora Board – Arduino Tutorial](#)

In this tutorial you will learn how to use the Adafruit Flora board and how you can easily program it with Codebender! FLORA is Adafruit's fully-featured wearable electronics platform. It's a round, sewable, Arduino-compatible microcontroller designed to empower amazing wearables projects. The FLORA family also..... Listed under: [LED Projects](#)
